

Cristie Bare Machine Recovery

Version 6.3  
for AIX

**Fast, automated**  
disaster recovery &  
data protection

**Powerful, easy-to-use Bare Machine Recovery software for AIX.**

**CBMR** disaster recovery software provides **fast** and **automated** recovery of failed AIX servers. Recovery may be to the original server or to dissimilar hardware - which may be either a physical or virtual machine. CBMR also provides fully featured backup functionality, including the **backup** and **recovery** of individual files using disk or tape media.

Features	Benefits
- Backups can be encrypted and compressed	- High level of security and saves disk space
- Multiple servers can be recovered simultaneously	- Easy to manage and schedule timesaving recoveries
- File-by-file backup: no need for a disk image	- Saves disk space, defragments OS files and avoids root-kit viruses
- Backups can be encrypted and compressed	- High level of security and saves disk space
- During recovery process, boot either from CD or network using PXE/NIM	- Flexible recovery process
- Fully compatible with CMC	- Web-based remote recovery, restore multiple servers over a large geographical area

**CBMR for AIX also features:**

- Command line or curses-based user interface
- Recovers P to P, P to V, V to P or V to V
- Support for striped and mirrored drive configurations
- Recovers both 32 and 64-bit IBM p-series servers
- Backup to tape auto-changers and libraries with full barcode support

Cristie Bare Machine Recovery

Version 6.3  
for AIX

**Fast, automated**  
disaster recovery &  
data protection

## ***How it Works***

All that is required for rapid recovery is a bootable CD and access to CBMR backups. Multiple servers can be recovered simultaneously and the recovery process normally only takes a few minutes for each machine. The time taken to recover a whole data centre can therefore be reduced dramatically to just a few hours.

## ***IBM Tivoli Compatibility***

Ready for

**IBM | Tivoli.**

software

CBMR operates either as a standalone backup and recovery application or in conjunction with other backup applications. CBMR is 'Ready for IBM Tivoli' software and is resold by IBM globally.

## ***System Requirements***

Supports AIX versions 5.1—6.1  
Disk Space 16MB  
Memory 256MB  
TSM Servers 5.5 and above  
TSM Clients 5.5 and above

## ***Languages***

CBMR for AIX is available in English
