

Cristie Management Console

Version 2.2.1

Fast, automated disaster recovery & data protection

Be in control with the Cristie Management Console

The Cristie Management Console (CMC) puts you in charge of your Cristie BMR products by providing you with centralised control, eliminating the limitations of onsite recoveries.

The CMC gives you the convenience of centralised control with all the power and functionality that you would expect, giving you the ability to manage backups in your enterprise environment.

CMC allows you to centralise your disaster recovery and backup response, simplifying and streamlining your disaster recovery plan across multiple environments and locations.

Table with 2 columns: Features and Benefits. Features include remote deployment, user management, remote management, monitoring, and email reports. Benefits include centralized control, delegation, elimination of on-site recoveries, central monitoring, and integrated response.

Cristie Management Console

Version  
2.2.1

**Fast, automated**  
disaster recovery &  
data protection

The Cristie Management Console (**CMC**) is an extension for **CBMR** and **TBMR**, allowing users to remotely manage server backups and recoveries, coordinated from a central console.

CMC means you aren't limited to recovering on-site and can provide multiple users with access to backup the required machines. Achieve greater flexibility, rapid reaction and recovery times and a streamlined response with CMC.

#### ***How it works***

Two types of user are supported in the CMC— Administrator and Normal, ensuring organised system management. To allow CMC to communicate with remote CBMR host machines, the Cristie Deployment Service (CDS) is installed on the remote host machines. The CMC/CDS interface can then be used to deploy CBMR, the CBMR licence file and the Cristie Agent interface. Setup is straightforward and fully supported by Cristie.

#### ***System Requirements***

Windows on Intel x86 or x64—XP, Vista, 7, 2003, 2008, 2008 R2

Linux on Intel x86—Centos

Supported Browsers—Internet Explorer 7.x,8.x, Firefox 3.5.x and above, Opera 10.x, Chrome 5.x, Safari 5.x

**CMC** download fully functional free trial 

To trial CMC, please contact us at [sales@cristie.com](mailto:sales@cristie.com), or visit [www.cristie.com](http://www.cristie.com). Your trial lasts 30 days.
